**XUNGRY** | Full Stack Web Developer
August 2018 – Nov 2018
- Developed a highly optimized Web App and deliver best of End User Experience by use of Java Script Libraries like React JS
- Developed an efficient server on Node Js along with postgreSQL as DBMS for Resource Management and Services of App.

## PROJECTS

**ADVANCED LIBRARY MANAGEMENT SYSTEM** | ERP
Currently in use by IIIT TRICHY Library
- Built a Modern PWA for Library Resource Management using React JS(UI) and Back-End Server on Node Js along with postgreSQL as DBMS
- Solves the Problem of Scalability by choosing postgreSQL as DBMS and Accessibilty by offering a Web App instead of a Native Application
- Experience the App: fahad-israr.github.io/iiittlibrary/ Credentials For Testing- Email: library@iiitt.ac.in Password: iiittrichy

**CSV PROCESSOR** | Plugin
A Utility Application for Database Migration
- Reads and Processes Data from CSV File into Database.
- A Java Servlet that may be used independently or as a Plugin with Web App for Database Migration.
- Git Repo: https://github.com/fahad-israr/CSV_to_DBMS_Processor

**A P.W.A. WITH DRUPAL AND REACT JS** | C.M.S.
A PWA with Content Management System Features
- Used the concept of Headless Drupal to create an Endpoint for Drupal,hence serving as a REST Api and the Developing UI using React Js.
- Github Repo: github.com/fahad-israr/PWA-with-Drupal-and-React-Js/
